### Navy Lodge reservations now just a click away

NEXCOM Public Affairs - Making a reservation at your Navy Lodge just got a whole lot easier, thanks to the Navy Exchange Service Command. Navy Lodge guests can now make, change or cancel a reservation at the click of a button. Just logon to NEXCOM's Web site at [www.navy-nex.com](http://www.navy-nex.com) to reserve your room.

"We know a large percentage of our guests have access to the Internet," said Michael Bockelman, director of NEXCOM's Navy Lodge Program. "Having this service available online allows any authorized guest to make a reservation, including those who may not be able to reach us otherwise, because they're on deployment. It's a great service and we're very excited for our guests to start using it."

To access the site, just click on the Navy Lodge On-Line Registration button on NEXCOM's Web site. From there, you can make, change, cancel or confirm a reservation. Your request is sent to the Navy Lodge Program's Central Reservation Center in Jacksonville, Fla., for processing. You will receive an e-mail confirmation on any change you make within 24 hours. ### Military Star Card interest rate drops to record low

NEXCOM Public Affairs - For the sixth time this year, Military Star cardholders will benefit from yet another drop in the card's interest rate. With the latest announcement by the Federal Reserve, key interest rates were lowered by a quarter percent. As a result, the Military Star card is reducing its interest rate from 11.75 percent to 11.50 percent, effective Aug. 1, 2001. The interest rate on the Military Star card has dropped nearly three percent since January and is at its lowest point since the card was introduced in September 2000.

This latest decrease broadens the highly competitive rate of the Military Star card versus other credit cards. According to [www.bankrate.com](http://www.bankrate.com), the average variable rate for a standard credit card is 15.24 percent, 14.42 percent for a gold card, and 14.90 percent for a platinum card. The Military Star card, which is not a bank card, is comparable to a private label credit card, similar to those offered by retailers such as Sears, J.C. Penney, Home Depot, and Target. Depending on a customer's payment history, these companies will offer inter-

### Aboard for briefings...

Monica Shephard, Director, Command Control Communications and Computer Systems, CINCLANTFLT, and Director of Navy Task Force Web, receives plaque marking her recent visit to the Naval Supply Systems Command, from RDML William Maguire, the Vice Commander of NAVSUP. She was briefed concerning NAVSUP and Naval Ammunition Logistics Center topics.

## NAVSUP's Executive Director accepts position at DLA

RADM Justin D. McCarthy, Commander, Naval Supply Systems Command, has announced that Larry Glasco, NAVSUP Executive Director, will be departing NAVSUP in mid-October.

Mr. Glasco has been named Executive Director, Readiness and Customer Support for the Defense Logistics Agency, and will be relocating to the DLA Headquarters in Fort Belvoir, Va.

McCarthy noted, "This is a real loss for NAVSUP. Larry Glasco is a true professional whose accomplishments for the NAVSUP team have been exceptional. We wish him all the best and know he will be a strong asset to DLA. His shoes will be very hard to fill, however a concerted effort is underway and we are in the process of reviewing candidates. This position is a critical part of our leadership team and I fully expect to have someone on board by the time he departs."

Glasco holds bachelor's

and master's degrees from the San Diego State University School of Public Administration and Urban Studies.

From 1975 to 1981 he was employed as a supply systems analyst in the Systems Analysis and Design Division of the Naval Supply Center, San Diego, Calif. From 1981 to 1983 he served as Section Head of the Systems Operations Section of the Management Operations Division at the Naval Air Rework Facility, North Island, San Diego, Calif.

He came to NAVSUP headquarters in 1983. His assignments included Supply Systems Analyst in support of various physical distribution functions (1983-1984); Branch Head, Intensified Repairables Asset Management (IRAM) Program (1984-1985); Director, Navy LOGMARS Program Office (1985-1987); Director, Material and Facilities Division (1988-1991); and Assistant Commander, Installations and Environment (1992-1993).

He was selected for the Senior Executive Service in 1994. Prior to his most recent position he served as NAVSUP Assistant Deputy Commander, Fleet Logistics Operations (1994-1998).

Glasco is the recipient of the 2000 Presidential Rank of Meritorious Executive Award.

## Transactions being reviewed

## Training stand down among actions set to strengthen Navy Purchase Card program

The Assistant Secretary of the Navy (Research, Development and Acquisition) has directed and the Naval Supply Systems Command has implemented a Navy and Marine Corpswide Purchase Card program stand down for all Department of the Navy purchase card personnel to reinforce training on the program's policies and procedures.

Recent reviews of purchase card usage reinforced the need to ensure those who use and oversee purchase cards understand their individual respon-

sibilities and accountability under the program.

The stand down was scheduled for Sept. 12. It will be rescheduled and will include detailed reviews of the purchase card program's rules and oversight requirements for card holders, approving officials, and agency program coordinators.

In addition, during the period through Sept. 28, all agency program coordinators have been directed to review purchase card transactions for the 12-

month period from September 2000 through August 2001 at their respective activities to identify any transactions that may have been outside the program's guidelines. The agency program coordinators will use a newly fielded purchase card electronic transaction analysis system to gain a quick and efficient look at transaction data. Transactions that fall outside the program's guidelines will be investigated and appropriate cor-

NAVSUP, as the Navy Purchase Card Program Manager, is also reviewing Naval purchase card policies and procedures to see if those policies or procedures need to be strengthened or modified, or if new policies are required.

est rates ranging from 21 percent to 24.99 percent.

The new rate does not apply to Military Clothing Plans, special promotions already in existence, or other special programs which may offer reduced rates such as reduced interest for JCS directed orders.

The Military Star card is accepted at all AAFES, NEXCOM, MCX, and Coast Guard exchanges, including catalog and military clothing stores operated by AAFES and Marine Corps exchanges.

## Application period opens for defense leadership program

The application period for the FY 2002 Defense Leadership and Management Program (DLAMP) is open now until Sept. 28.

DLAMP is a Department of Defensewide program of "joint" civilian leader training, education, and development within and across DoD components. The program provides the framework for developing future civilian leaders. It also helps develop a shared understanding and sense of mission among civilian and military personnel.

Naval Supply Systems Command enterprise employees in grades GS-14 and 15 (including nonappropriated fund employees), GS-13 members of the NAVSUP Corporate Management Development Program who have completed their developmental requirements, and GS-13 employees or equivalent of the Navy Exchange Command may apply.

Members of DLAMP will be required to complete a career broadening rotational assignment of at least 12 months, professional military education with an emphasis on national security decision-making, a minimum of 10 advanced graduate-level courses encompassing a range of subjects

and issues facing defense leaders, and component and occupation specific development courses as appropriate. A formal mentoring program will also be an integral element of DLAMP.

Applications will be reviewed first at their respective activities or by Deputy Commanders for NAVSUP headquarters applicants. The top priority applications will then be forwarded to NAVSUP Headquarters, where they will be evaluated by the NAVSUP Civilian Executive Advisory Board against the executive core qualifications designated by the Office of Personnel Management. Applications must arrive at NAVSUP Headquarters by Sept. 28.

NAVSUP enterprise candidates considered to be the best qualified will be forwarded to the Deputy Assistant Secretary of the Navy (Civilian Personnel/Equal Employment Opportunity) for further consideration. Final selections will be made at DoD by the DLAMP Council and will be announced at the beginning of the year.

Forms are available from field activity human resource offices. Questions may be referred to David Lewis, Ext. 1861.

## Hispanic Heritage Month observance starting

National Hispanic Heritage Month will be observed from Sept. 15 to Oct. 15. The theme for this year's observance is "Paving the Way for Future Generations."

"The continued strength and success of our great nation depends on our young generations — the leaders of tomorrow who will guide the future successes of our Navy," a message released recently by VADM Norb Ryan Jr., N1, states.

The message continues, "The accomplishments of prominent Hispanic Americans in the past have paved the way for those who serve today. These prominent individuals include Admiral Horacio Rivero, a former Vice Chief of Naval Operations and the first Navy four-star admiral of Hispanic Heritage; the Honorable Edward Hidalgo, the first Hispanic to serve as Secretary of the Navy (1979-1980); and Seamen Philip Bazaar and John Ortega, who were awarded the Medal of Honor for their heroism on board USS *Santiago de Cuba* and USS *Saratoga*, respectively, during the Civil War.

## Navy secures ports, provides relief in wake of terrorist attacks

By Jerome W. Mapp, Navy Wire Service

WASHINGTON, Sept. 12 (Navy Wire Service) — Simultaneous terrorist attacks at the World Trade Center in New York, and the Pentagon locally, prompted an immediate security and relief effort by the U.S. Navy.

As the Navy positioned ships off the coasts of Washington, D.C., and New York, the hospital ship USNS *Comfort* (AH 20) prepared to sail from its berth at Baltimore, Md., to embark Navy medical personnel at Earle, N.J., before setting sail for the coast of New York. *Comfort* has a crew of 61 civilian mariners and more than 700 Navy medical and support personnel.

*Comfort* contains 12 fully-equipped operating rooms, a 1,000-bed hospital facility, radiological services, a medical laboratory, a pharmacy, an optometry lab, a CAT scan, and two oxygen-producing plants. The ship also has a deck capable of landing military helicopters as well as side ports to take on patients at sea.

In Norfolk, Va., USS *George Washington* (CVN 73) set sail in support of defense and humanitarian efforts off the coast of New

York. Other ships in support include USS *Leyte Gulf* (CG 55), USS *Monterey* (CG 61), USS *Hue City* (CG 66), USS *Vicksburg* (CG 69), USS *Vella Gulf* (CG 72), USS *Ramage* (DDG 61), USS *Ross* (DDG 71), USS *Detroit* (AOE 4), USS *Bataan* (LHD 5) and USS *Shreveport* (LPD 12).

*George Washington* will respond to tasking from the North American Aerospace Defense Command (NORAD) in providing air defense to the city.

Pacific Fleet ships underway and ready to respond to any tasks in support of national defense at sea to contribute to the air and sea defense of the U.S. West Coast and Hawaii include USS *John Stennis* (CVN 74), USS *Mobile Bay* (CG 53), USS *Valley Forge* (CG 50), USS *Decatur* (DDG 73), USS *Stethem* (DDG 63), USS *Higgins* (DDG 76), USS *Russell* (DDG 59), USS *Fife* (DD 991), USS *Rentz* (FFG 46), USS *Sides* (FFG 14), USS *Thatch* (FFG 43), USS *Ford* (FFG 54), USS *Rodney M. Davis* (FFG 60), USS *Salvor* (ARS 52) and USNS *Yukon* (T-AO 202).

Navy and Marine Corps installations around the country are at the highest states of alert. They are taking increased force protection measures to ensure the safety of military and civilian personnel at these installations.

Meeting in Naval Ammunition Logistics Center

## NALC hosts NAR group

The Naval Ammunition Logistics Center recently hosted a two-day Notice of Ammunition Reclassification (NAR) meeting in Mechanicsburg by direction of the Naval Ordnance Readiness Improvement Process (NORIP).

NAR is a notice issued by NALC advising stock points and ammunition custodians of changes in the serviceability, status or condition of ammunition, components and related material. The NAR process is a critical ordnance safety program and is also a key component to fleet asset readiness. It is a major element of the Department of the Navy's Ordnance Information System, de-

veloped by the NALC.

Ed Darhower, NALC's Logistics Business Process Analyst, and Marine Capt. Mike Sexton of CINCUSNAVEUR chaired the NAR meeting.

Participants included OPNAV, Fleet and Marine Corps Ordnance Officers, Program Manager personnel, Naval Ordnance Safety and Security Activity (NOSSA), and ordnance stock point personnel.

The Optimum NAR Process will be modified to include additional process and information systems requirements developed by the group and will ensure all commodities of ordnance are fully incorporated into the single NAR process.
